Martin Sofroniev
JavaScript Web Developer

I decided to with start programming at the high school. My first language was C++ until the first year in the university. Then i saw and started officialy with JS. I have no professional experience, and I am oriented towards an internship or junior program.

EDUCATION

Information Technologies in the industry
Technical University - Sofia

09/2020 - Present   *Sofia*

Main topics
- C++ OOP Fundamentals
- Computer Networking
- Operating Systems
- SQL Databases (MySQL)

JavaScript Basics and Fundamentals - 2021
Software University

06/2021 - 12/2021   *Remote*

JS Basics: https://softuni.bg/Certificates/Details/109760/da7bc71a JS Fundamentals: https://softuni.bg/Certificates/Details/119846/33310330
- Conditional Statements
- Data Types and Variables
- Objects and classes
- Loops and nested loops
- Arrays and functions
- Test processing and RegExp

JavaScript Advanced - 2022
Software University

01/2022 - 04/2022   *Remote*

JS Advanced: https://softuni.bg/Certificates/Details/150178/5ffc9922 JS Applications: https://softuni.bg/Certificates/Details/153052/8aae6bc4
- Arrays and Nested Arrays
- DOM Manipulations and Events
- Unit Testing and Error Handling
- HTTP and REST Services
- Single Page Applications
- Objects and Composition
- Advanced Functions
- Prototypes and Inheritance
- Asynchronous Programming (Promises, Async/Await)
- Client Side Rendering and Routing

JavaScript Web Technologies - 2022
Software University

09/2022 - 12/2022   *Remote*

JS Back- end: https://softuni.bg/Certificates/Details/146819/92b53ff9 ReactJS: https://softuni.bg/Certificates/Details/170039/8a356289
- Node.js Streams and Utilities
- NoSQL and MongoDB (mongoose)
- Validation and Error Handling
- Functional components
- Advanced techniques (reducers and unit testing)
- ExpressJS and Handlebars
- Sessions and Authentication
- React (JSX, vDOM, state/props)
- Routing, Forms and Hooks
- Context API, Lazy loading and Suspense, HOC

HTML & CSS - 2023
Software University

01/2023 - 02/2023   *Remote*

HTML & CSS: https://softuni.bg/Certificates/Details/163170/395647b6
- HTML Structure (Semantic)
- CSS Box Model and positioning
- CSS & Typography
- Flexbox and Media Queries

SKILLS

HTML5 CSS3 JavaScript
SQL/NoSQL Databases NodeJS

LANGUAGES

English
Intermediate

PERSONAL PROJECTS

NutriGit - Healthy food application (03/2023 - 04/2023)
- Single Page Application with REST API connection, user session and iteractions.
- Client-Side technologies: ReactJS, JavaScript, HTML, CSS
- Server-Side: Express (NodeJS), Handlebars, MongoDB with mongoose,
- Client-side source code: https://github.com/Martin322s/healthy-food-app/tree/main/client
- Server-side source code: https://github.com/Martin322s/healthy-food-app/tree/main/server

Film-library-project (02/2023 - 04/2023)
- Single page application using ReactJS for the client side and NodeJS for server side. User sessions, database connection and error handling.
- Client-side source code: https://github.com/MaRtin322s/film-library-project
- Server-side source code: https://github.com/MaRtin322s/project-back-end

Shared trips - SoftUni Exam (11/2022 - 12/2022)
- Multi - page application with database connection, user session and authentication and validation with error handling.
- Used technologies: NodeJS (Express), MongoDB, mongoose, JWT, bcrypt for password hashing and handlebars.
- Source code: GitHub source code: https://github.com/MaRtin322s/softuni-shared-trips
